**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 6/17/2010 has been entered,

***Allowable Subject Matter***

2. Claims 1-20 are allowed. The following is an Examiner's statement of reasons for allowance:

Independent claim 1 of the present application is allowable because the prior art of record taken singly or in combination fail to teach, anticipate, suggest, or render obvious the foregoing limitations “issuing, by said controlling module, an instruction to said sending means to issue a download request over a network for downloading error correcting information over said network, according to the error type determined at said step (a); (c) receiving the error correcting information over said network by said receiving means, responsive to said request; and (d) correcting the errors at the storage medium play system using the error correcting information provided over said network”. Consequently, claim 1 is allowed over the prior arts.

Art Unit: 2112

Independent claim 9 of the present application is allowable because the prior art of record taken singly or in combination fail to teach, anticipate, suggest, or render obvious the foregoing limitations: “determining, at the server, whether the error correcting information corresponding to the error type identified in the download request exists; (c) obtaining, at the server, new error correcting information if the error correcting information corresponding to the error type identified in the download request does not exist; and (d) sending the error correcting information corresponding to the download request from the server to the storage medium play system.”

Dependent claims 2-8, 10-15 depend from allowable independent claims 1/9 and inherently include limitations therein and therefore are allowed as well.

Independent claims 16 and 19 include similar limitations of independent claim 1 and 9 and therefore are allowed for similar reasons.

Dependent claims 17-18 and 20 depend from allowable independent claims 16/19 and inherently include limitations therein and therefore are allowed as well.

The limitations disclosed in the instant application (No. 10/599,597) are neither anticipated nor render obvious by the prior art of record. Furthermore, the prior arts of record and the IDS filed on 6/17/2010, taken singly or in combination, fail to teach, anticipate, suggest, or render obvious the foregoing limitations.

These limitations, in conjunction with all other limitations of the base claims were not shown by, would not have been obvious over, would not have been fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
